

Kayak fishing is a rapidly growing, popular activity that many members of the Marco Sportfishing Club enjoy. MSC Kayak fishing events are held on a monthly basis at a number of different locations throughout Southwest Florida. We vary the venues monthly to give our kayak anglers exposure to different environments, fishing techniques, and species of fish that can be caught.

MSC members who participate in the kayak fishing events generally own their own kayaks and transport them to and from each venue. Members who do not have experience in kayak fishing but are interested in trying out the sport can sometimes borrow one from a MSC member who has an extra kayak. Or, kayaks can also be rented at many different locations in the Marco Island area.

Fishing out of a kayak is a great way to be outdoors, enjoy nature and experience the beauty of the mangroves and backwaters that surround Marco Island, Everglades City and basically all of Southwest Florida. It's a great way to catch fish and you get the benefit of exercising at the same time with no need to go to the gas pumps! Typically, MSC kayak trips will last approximately five to six hours and will cover 5 to 7 miles. If you are a new member or a current member who is interested in participating in our kayak fishing activities, please respond by email and provide your name and your cell phone number. You will be placed on the kayak fishing email list and will be notified by email of any upcoming events.

Kayak fishing events are always listed on the calendar in the monthly MSC newsletter and are also shown on the calendar of events on the MSC website. If you want to be placed on the Kayak Fishing Mailing List or if you have any questions, please use this link to contact Howard Laskau, the MSC Kayak Events Coordinator:
